

local strategic partnership in a deprived area

The Local Strategic Partnership (LSP) brings together, at a local level in an area of Norfolk, the different parts of the public sector as well as the business, community and voluntary sectors. The partnership exists to encourage the partners to work together to achieve more, particularly by improving the way that different initiatives and services are coordinated.

The LSP exists to:

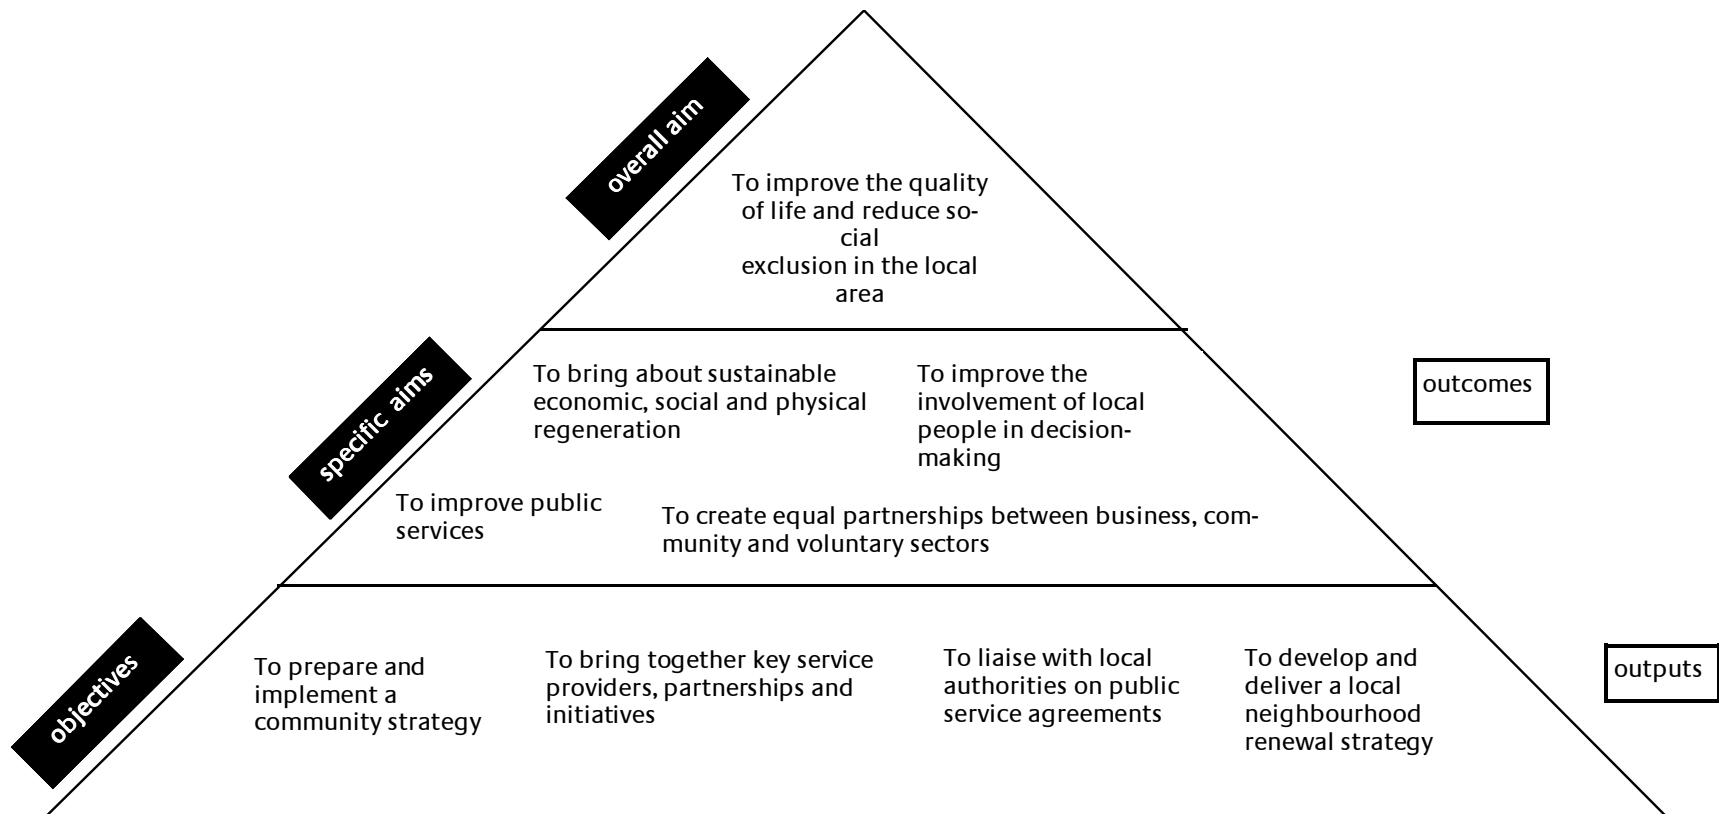

- tackle deprivation and social exclusion
- promote the regeneration neighbourhood renewal strategy
- deliver public services in ways that meet people's needs
- encourage local people to influence decision making and take action to improve their neighbourhoods.

The LSP:

- prepares and implements a community strategy for the area
- brings together local plans, partnerships and initiatives to provide a forum through which mainstream public service providers work effectively together to meet local needs and priorities
- helps the local authority develop public service agreements
- develops and delivers a local neighbourhood renewal strategy.
